

1 Dec 2003

To Descendants of Thomas Sunderland Hawkins:

Dear family,

It has been years, now, since we tried to communicate with you and a lot of things have changed in our world, the Internet being one of them. This will be our last attempt to send out a letter by Snail Mail. We find it impossible to keep the mailing list up to date, partly because we don't send out a lot of letters, and to be frank, partly because we get very little cooperation from you family members.

In spite of everything, we have faith that family members really do want TSH histories, really do want information on genealogy progress, and do want updates on the family in general. We have established a Thomas Sunderland Hawkins web site, which we hope will satisfy most of our needs without a lot of time and expense. The web site is **TSHawkins.com**. It should be up and running by the time you get this letter.

We still have TSH history books. They're still the same price, \$25.00 plus shipping. The only change is that George Hawkins, 478 W. 2400 South, Bountiful, UT 84010, is now the contact for book orders. George's email is [georgehks@aol.com](mailto:georgehks@aol.com). Or Tel. 801 295-0992. This information will be on the web site.

We also have good news on genealogy research. The family has hired Karen Mitchell to research our family. Karen is a TSH descendant, so she has a special affinity for our work. She has pushed the Hawkins line back another three generations after being stuck for 45 years. This information will also be posted on the web, along with downloadable GEDCOM files of the TSH ancestry.

We hope this meets with your approval. We also hope that if you receive this letter, you will share the information with everyone you know in the family. **Tell everyone about the web site.** The web will be our only means of communication from now on.

Sincerely, Your presidency.

*George Hawkins*

*Paul Hawkins*
